

Team Update

October 2022

Chris

U.S. Marine Corps Veteran

& MCLELLAN

Certification:

-Medical Alert Dog-Psychiatric

Resides in:

Jacksonville, North Carolina

"Since MCLELLAN and I have become a team, my life has changed so much in all aspects of life including social interactions and life at home with my family. MCLELLAN has helped me with the issues that I needed help with. MCLELLAN has taught me to trust and focus on him and that he will help me get through any situation. I know for some people that may not mean much, but it was the biggest challenge for me. I have more days now where I do not wake up with nightmares because of MCLELLAN. I am able to spend time and go places with my family that I would never have done before. I can go to the movie theatre and go to restaurants and not worry or feel that I must leave immediately. I know with MCLELLAN by my side that I have battle buddy always in my corner to help me through all my difficult days and difficult times that I struggle with. Not only is MCLELLAN my battle buddy, but he is also my families. He helps my wife and son while they struggle to deal with my every day issues. I am so thankful for having MCLELLAN in my life and so thankful for paws4people and Warrior Salute for giving me a chance to be apart of my family again and to be able to enjoy life again!"
